

**REMARKS**

As required by the Notice to Comply with Requirements for Patent Applications Containing Nucleotide Sequence and/or Amino Acid Sequence Disclosures, sent June 22, 2010, Applicants submit concurrently herewith a sequence listing and request that the Examiner enter the sequence listing as part of the application. The specification has been amended to identify sequences appearing in paragraph 36 and in Table 1, immediately following paragraph 61, by their sequence ID numbers. Additionally, Table 1 has been amended to correct an obvious typographical error in the sequence of Peptide 3. No new matter is added by way of presentation of this sequence listing and these amendments to the sequence listing. Their entry into the above identified application is therefore respectfully requested.

It is not believed that extensions of time are required, beyond those that may otherwise be provided for in documents accompanying this paper. However, in the event that additional extensions of time are necessary to allow consideration of this paper, such extensions are hereby petitioned under 37 CFR § 1.136(a), and any fee required therefore is hereby authorized to be charged to Deposit Account No. 16-0605.

Respectfully submitted,
